Subject: Skyline Mine June 2004 UPDES

Pam:

I have successfully uploaded to the EDI the June 2004 results of the Skyline Mine UPDES sampling. If you have any questions, please let me know. Dana - I accidentally selected the wrong lab, CHE, for one of the sites and re-entered the data using the correct lab, CTE. Would you please remove the CHE sample? Also, the first June sample I tried to upload suggests there is another sample in the system with the same number. It may be possible that I uploaded the first June sample previously. Though I cannot believe that I would be that on top of things to have already put that sample in, would you please check this for me? Thanks,

Chris
